Experience

Teaching Assistant • Kumon Learning

April 2023 - Present
- Demonstrate patience and adaptive communication skills while providing academic support to students in a structured learning environment.
- Collaborate with instructors and communicate regularly with parents regarding student progress.
- Managed multiple responsibilities including independently planning, grading, and assisting students with classwork in a professional and supportive environment.

Associate Creative Manager • Now What? Race Team

December 2024 - September 2025
- Led creative initiatives including logo design, merchandise (T-shirt) concepts, digital graphics, and designing the team website.
- Collaborated closely with team members to develop cohesive visual branding and social media content under tight deadlines.
- Coordinated team roles and responsibilities by assessing individual strengths and fostering productive collaboration.

Front-End Web Development + Design • Projects

September 2024 - April 2025
- Performed live usability tests for app-interface functionality of OurMeals, a grocery app, and implemented feedback to improve user-computer interaction.
- Developed project management documentation, including business cases, project charters, work breakdown structures (WBS), and Gantt charts for a semester-long case study for a simulated client engagement web portal.
- Developed a personal website and a dictionary database using SQL and PHP for functional backend database design and integration.

Education

BSC in Computer Science • Toronto Metropolitan (Ryerson) University

SEPTEMBER 2021 - Present
Currently in my final year of pursuing a Computer Science degree at Toronto Metropolitan University, learning various programming languages and design skills, and applying them in functioning projects.
